

MATE

CASHMERE

Sustainable Cashmere for a
sustainable world.

Lookbook 2023

Mate Cashmere

Mate Cashmere is an Italian brand of clothing and accessories made of regenerated and sustainable cashmere.

Mate as “**friend**”. A valuable ally for a whole new way of thinking about fashion. A 100% sustainable fashion and Made in Italy.

For a fashionable world. For a sustainable fashion for the world.

Our motto is also our corporate philosophy and tells our vision:

**sustainability is a choice,
not a fashion trend.**

Sustainability is a choice, not a fashion trend.

An idea for a better world

Since 2016, we have been making collections which combine the quality of cashmere with an environmental impact close to zero.

Our production cycle starts from the purchase of post-consumer pure cashmere knits, otherwise destined to become waste, with the aim of generating new clothes without unnecessarily energy waste.

In this way we avoid excessive consumption of chemicals,

water and exploitation of animals.

Our commitment is certified. In fact, our company holds the important GRS certification (Global Recycled Standard).

Our collections, however, keep the quality and softness of cashmere, with continuous stylistic research to always be fashionable.
